DAVI RANGEL

FULL STACK DEVELOPER | VUE.JS • NUXT • NODE.JS

Brasília, Brazil | +55 (61) 98374-4515 | davirangelcamara@gmail.com
linkedin.com/in/davirangelcamara | Open to relocation to Portugal

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience building web applications, ERP platforms, and system integrations. Specialized in Vue.js/Nuxt, with back-end experience in PHP and Node.js. Currently providing technical leadership for ERP integrations and a Vue 2 to Vue 3/Nuxt 3 migration. Developed a complete Mercado Livre integration, contributed to a 70%+ reduction in integration errors, and trained four developers.

TECHNICAL SKILLS

Front-end Vue.js (Vue 2/3), Nuxt 3, JavaScript, TypeScript, Vuetify, Vuex, React.js, HTML, CSS, Tailwind CSS
Back-end Node.js, PHP, Laravel, CodeIgniter, REST APIs, third-party integrations
Tools SQL, Docker, Git, GitLab API, Cypress, Jest

PROFESSIONAL EXPERIENCE

TagPlus | Full Stack Developer | Technical Leadership — May 2025 – Present

- Lead technical work on ERP integrations across Vue.js front-end and PHP back-end services, contributing to a reduction of over 70% in integration-related errors.
- Designed and built the complete end-to-end integration between the TagPlus ERP and Mercado Livre.
- Lead the team migrating the legacy ERP from Vue 2 to Vue 3/Nuxt 3, with a focus on architecture, code quality, and maintainability.
- Trained four developers to support the integrations team and provide technical guidance through code reviews and troubleshooting.
- Contributed to an internal developer metrics and feedback platform powered by the GitLab API; developed APIs and automated tests.

Rede São Roque | Front-end Developer — Jan 2023 – Apr 2025

- Worked in a four-person team building the company's internal website using Vue.js, developing responsive interfaces, reusable components, and business workflows.
- Used Node.js and REST APIs to support application features and front-end/back-end integration.

Banco Afro | Full Stack Developer — Jul 2022 – Apr 2024

- Part of a three-developer team responsible for the front-end and back-end of public and internal applications, including Afro Pay.
- Built Vue.js/Nuxt interfaces and Node.js services/APIs; used Vuetify, Vuex, and Docker in development workflows.

Telemont | Full Stack Developer — Aug 2021 – Sep 2022

- Developed internal systems in partnership with SENAI, using Vue.js and PHP for authentication, administration, and business workflows.

SELECTED PROJECT

Sports Prediction Pool Web Application | Undergraduate Capstone Project (TCC)
Designed and developed a sports prediction pool website, using Node.js for back-end development.
